LOUISVILLE NATIONAL

A DAILY NEWSPAPER To Represent and Advocate the views of Uncon ditional Union Men.

ROM the inception of the rebellion, the gen-uine Union sentiment of the State of Ken-tucky has found but little expression, either in the addresses of the prominent politicians or in the press. This state of things, at all times a source of murmuing, though somewhat alleviated by the partial supply of loyal journals from other States, has at last ripened into dissatisfaction and a positive demand for such a newspaper. Demanding that the rebellion shall be suppressed, we would have all the means necessary to suppress it cheerfully supplied. Regarding units as essential to speedy success, we would enforce

it as the duty of every citizen to give to those who administer the Government—whilst the was continues—sympathy and support. Believing the rebellion to be not only without pulliation or excuse, but a crime we would have it taugh that those who have inaugurated and prosecuted it should wholly bear the responsibility o ed it should wholly bear the responsibility of its guilt. Recognizing the rebellion as gigantic in its proportions, we would have the difficulty of grappling with it fully realized.

In so wide a field where the instruments employed must be varied, errors of judgment are unavoidable. We would not therefore, judge harshly of the means employed, whilst we see

they are suggested by a sincore desire to re-establish the authority of the Government. In sword, we wish to teach that it is the paramoun duty of the Government to preserve the Union by all the means recognized by civilized warfare Rejoicing at every tramph of our arms, we desire to affiliate with those true Union meneverywhere, who hope for, and look to the nation success in the field—not to its defeat as the surest means of securing a lasting and honorable

peace.
The vote of the people of Kentucky, on every occasion—and their resolutions in their primary assemblies, far ahead of their politicians, far in advance of their press, are to us the surest guar-anty—that a majority are wi'h as. The object of this paper is to give organization to that ma-jority, and to develope into political action the convictions which, in their hearts the people cherish. Also, to take full advances of the cherish. Also, to take full advantage of the facilities at command to furnish its patrons with the current news, and to develope some important features of a Daily, that have not hitherto receiv-

ed from the press here the prominence desirable in a mercantile community.

Without waiting for the new Press, Type, &d., ordered, the Publisher, depending upon his pres-ent resources, not inconsiderable, ventures to announce the appearance of the first number on Monday, April 18th, 1864.

CEDRON BITTERS. The Latest and Most Important Discovery of the 19th Century.

O MAN'S name is more intimately connected with the history of the Materia Medica of the United States, or more favorable known as a pioneer in Medical discovery, than that o. Dr. JOHN BULL, of Louisville, Ky. His inimitable preparation of Sarsaparilla, has long stood at the head of the various compounds of that valuable drug. His Compound Pectorat of Wilducher Cherry, has become a household word throughout the West and South; and his Worm Lozenges, in less than a year after their introduction attained a reputation as wide spread as the continent of a reputation as wide spread as the continent o North America. But the crowning glory of hi life remains to be attained in his latest discovery or rather combination, for he does not claim to have been the discoverer of CEDRON, which is the basis of the bitters new offered to the public That h nor belongs to the native inhabitants of Central America, to whom its virtues have bee known for more than two hundred years. A series of experiments in which Dr. Bull has been for years engaged, has just been brought to a successful termination, and he is now enabled to offer to the public a combination of Cedron with other approved tonics, the whole preserved in the best quality of copper distilled Bourbon whisky, which he is confident has no equal in the world.

He might furnish a volume of certificates, but the public have long since learned to estimate such things at their true value. The safest plan is, for every one to test for himself the vitues of a new medicine. Give the

Is it not selfishness in the Journal to ask the Union to do such a thing? Has it not made enough out of the Government, since Mr. Lincoln was President, to enable it to expend a sum sufficient to erect a hand some monument to Mr. Lincoln, and have a large fortune left? If it should determine to do its duty in the premises, we suggest, as an appropriate figure for one panel, a representation of the Journal in the form of a Viper, struggling to strike its tange into the

Those who control the Chicago concern know how to accomplish their ende, by dividing, that they may conquer. By inocu lating their partizans with the "Greeley-Sumper-Philips Abby Kelly" disease, these same leaders have often infected the people in old partizans campaigns with the disorder, and divided them up into factions, whereby they secured "the five loaves and two fishes" to themselves; they played the game at Charleston, and again at Baltimore, in 1860, to break up the Government; we should not be surprised, if they have had these fanatics in their pay, lo these many years; they have always patted them on the back, and urged them on; they are now doing so, in reference to the Cleveland movement the fanatics have on hand. Revealing its Fangs !

The Louisville Journal is growing so desperate, that it some times neglects to conceal its aims and desires. One of these articles appears in its issue for May 11, denouncing the Administration, and advising revolutionary means to get rid of the President and other officers of the Government. That we may not be even suspected of misrepresenting the Journal, we give an extract from the article :-

"The present campaign, as we have said, will end the contest, if the side of the government triumphs, but not in the opposite event yet the ending of the contest by the triumph of the side of the government will be only We made no "guesses" about the question of the first great step toward the presevation of a coalition between the factions opposed to the Union. As the loss of the campaign, faction to which those parties belong have if unhappily the campaign should be lost, would not absolve patriots from the duty of recewing the prosecution of the war, so the inning of the campaign, it it happily shall be won, will not absolve patriots from the duty of expelling the revolutionists from power. This duty, as an essential part of the paramount duty to preserve the Union, hinges on something higher than military events. - Lou. Jour. May 11.

The careful reader of the Journal's article, ded, like the one of April, 1861, to incite "if was received by Gov. BRAMLETTE, and handed happily" it could do so, - "which Heaven for- to us by him for publication :gratulating Mr. Smith and his faction The bid,"—the people to revolution against the Administration. With great preten se of a To Gov. Bramlette : They may be for Gen. But the object of the Journal, and those with whom it acts, will not be accomplished. Its appeals to mobs will be disregarded by the people, and the chalice will be returned for six months. This call is made that an end to its own polluted lips. The Union armies, under the providence of God, who planted ings of peace. The Journal had better take warning. At one time it had a reputation for devotion to the Union; but its open vituperation of the Administration and the Government, and the Administration and the Government, and the aid and comfort it is giving to the enemies of the Union, are fast destroying the last vestige of that reputation, and placing it in the tige of that reputation, and placing it in the ranks of the organs of the traitors.

THE RETURNED PRISONERS. - In the distribution of the five hundred and eixty-five released prisoners recently arrived from Richmond, one hundred and four of the most enfeebled and helpless were sent to the Army Hospitial, West's Buildings. Of this number thirty three have since died, as we learn by the report, up to yesterday noon. Thirty-three deaths in a period of less than Thirty three out of one hundred and four! Such a per centage of mortality is frightful. And this, too, in spite of the utmos efforts of human skill, of nutiring and unremitted devotion to duty on the part of the medical officers, of faithful and well directed labor on the part of the nurses, and of the most assiduous attention on the part of the ladies of Baltimore. All that could fan the flickering flame of life into a brighter glow was done by these ministers of humanity The soothing voice of kindness, the rallying stimulant, the tempting delicacy, were all in tried in vain. The vital force was expended, ba the wheels would no longer revolve in the ity. face of a consuming friction, and the lamp of life burned to ashes. We suppose the undertaker's certificates read: Died of de. Long, bility, or exhaustion, or atrophy, or marasmus, or some kindred term. But on the page Nos. 1 &2 of history, and in the book of Gov's right eous retribution, the "crowner's "quest" will eous retribution, the crowner declare: Died of slow starvation in the hands plication.
